PF-P320

The PF-P320 automatic folder from Standard with pre-programmed fold setting and Liquid Crystal Display achieves a new level of operator confidence with its operational ease and reliability, accurate feeding capabilities and exceptional productivity. Churches, schools, clubs, businesses, corporate copy centers, quick printers; virtually any organization seeking to improve their desktop folding productivity while maintaining user friendly operation will find the PF-P320 to be a terrific solution!

Simple Operation

The operator selects from four preset sheet sizes and six fold patterns with the press of a button. Operational procedures are clearly viewed on the LCD screen. The large start/stop feed button and other operator controls are easily identified and uncomplicated to use.

Selecting A Fold Pattern

Six popular folds are pre-programmed for selection: letter, half, double parallel, engineering, z-fold and gate folds. Producing a cross fold with the optional cross-fold accessory is quick and easy, as is manually overriding the automatic settings for non-standard stock sizes.

Preset Fold Patterns

Letter Fold

Half Fold

Double Parallel Fold

Engineering Fold

Z-Fold

Gate Fold

Programmable Memory Function

There are two programmable memory settings for custom folds and by selecting counter mode you can set preset counter with 10 digit key pad.

Simple Maintenance

The PF-P320 is designed for easy operator maintenance. The feed roller and paper separator pad replace easily. Tool-less removal of the fold rollers makes cleaning or replacement a simple task.
